<input type="radio"/> 5 Years	4.50%	4.50%
<input type="radio"/> 6 Years	4.50%	4.50%

For terms that are less than six months, you can only receive interest at maturity.

Or choose your own term

## STEP 11:

Choose how you would like your **interest** paid **N**, then select **Continue** **O**.

3 Choose how interest will be paid

\* How would you like your interest paid?

Reinvested  Regular income  At maturity

Interest you earn is added back in to your Term Deposit so you earn interest on your interest. Interest paid out regularly. All interest will be paid at the end of your term.

\* Interest will be reinvested:  Quarterly  Six monthly

Your estimated return on investment

Interest before tax:	\$195.90
Less tax:	\$64.62
Net interest:	\$131.28

Your estimated return on investment is the total amount returned over the investment term, using a RWI rate of 33%.

The calculator is intended as a guide only and some rounding is used. [Learn more about these calculations.](#)
