

ASB KiwiSaver Scheme

Balanced Fund

Quarterly Disclosure Statement for 1 July 2013 to 30 June 2014

What is the purpose of this statement?

This statement provides key information about the ASB KiwiSaver Scheme Balanced Fund. It tells you how the fund has performed and what fees it charged, and will help you to compare it with other funds. We prepared this statement in accordance with the KiwiSaver (Periodic Disclosure) Regulations 2013. This information is not audited and may be updated.

Description of the fund

The Balanced Fund aims to provide investors with long-term capital growth, using an index-tracking investment management style for assets other than cash. It invests in a relatively high proportion of diversified growth assets (equities and property) and a lower proportion of diversified income assets (cash and fixed interest).

Total value of the fund	\$442,748,187

Electronic disclosure of this information

Most of the information contained in this statement, including some additional information, is available in a spreadsheet at asb.co.nz.

Notes

- ¹ Returns in this statement are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax rate may be lower.
- ² Fund fees are fees charged as a percentage of a member's interest in the fund (i.e. as a percentage of their KiwiSaver account balance). As required by the KiwiSaver (Periodic Disclosure) Regulations 2013, the fund fees shown in this statement are calculated as a percentage of the average net asset value of the fund for the year to 31 March 2014. This differs from the method used to calculate and pay the fund's investment management fee. For more information on the fund's investment management fee, see the ASB KiwiSaver Scheme investment statement.

- ³ Membership fees are the fixed dollar charges for membership in the KiwiSaver scheme. If you invest in more than one fund, the membership fee is charged proportionately across the ASB KiwiSaver Scheme funds you invest in according to your interest in each fund. ASB Group Investments Limited may waive or reduce the membership fee for any member or group of members. For more information on membership fees, refer to the information on administration fees in the ASB KiwiSaver Scheme investment statement.
- ⁴ Cash held for liquidity purposes is included within the asset class to which it relates and not separately identified. An asset class may have exposure to securities that can also be categorised as a different asset type, as explained below. At 30 June 2014:
- no New Zealand fixed interest securities are included in the International Fixed Interest asset class;
 - listed property securities comprise approximately 7.74% of the Australasian Equities asset class;
 - listed property securities comprise approximately 2.72% of the International Equities asset class and Australasian equity securities comprise approximately .06% of the International Equities asset class.
- ⁵ The target investment mix does not take account of cash held for liquidity purposes. Each asset class (other than cash) aims to closely track the return of a market index or combination of indices.
- The International Fixed Interest asset class may have exposure to any New Zealand fixed interest securities that are included in a market index for the International Fixed Interest asset class. At 30 June 2014, no New Zealand fixed interest securities are included in a market index for the International Fixed Interest asset class.
 - The Australasian Equities asset class may have exposure to any listed property securities that are included in a market index for the Australasian Equities asset class. At 30 June 2014, listed property securities comprise approximately 7.91% of the market indices for the Australasian Equities asset class.
 - The International Equities asset class may have exposure to any listed property securities and Australasian equity securities that are included in a market index for the International Equities asset class. At 30 June 2014:
 - listed property securities comprise approximately 2.79% of the market index for the International Equities asset class;
 - Australasian equity securities comprise approximately .06% of the market index for the International Equities asset class.
