

ASB KiwiSaver Scheme

Conservative Fund

Annual Disclosure Statement for 1 April 2014 to 31 March 2015

What is the purpose of this statement?

This statement provides key information about the ASB KiwiSaver Scheme Conservative Fund. It tells you how the fund has performed and what fees it charged, and will help you to compare it with other funds. We prepared this statement in accordance with the KiwiSaver (Periodic Disclosure) Regulations 2013. This information is not audited and may be updated.

Description of the fund

The Conservative Fund aims to provide investors with conservative returns over the medium to long-term, using an index-tracking investment management style for assets other than cash. It invests in a high proportion of diversified income assets (cash and fixed interest) and a low proportion of diversified growth assets (equities).

Total value of the fund	\$2,632,392,346

How has the fund performed?

	Past five Years	Past Year
Annual Return (after deductions for fund fees and tax ¹)	4.57%	7.14%

How has the fund performed in the past?

This shows the return after fund fees and tax¹ for each tax year since the fund started and the average annual return since the fund started. It's important to note that this doesn't tell you how the fund will perform in the future.

What fees were members charged?

The returns above are after deductions for **fund fees**². Over the past year these were:

Total fund fees	0.38% of members' investments
<i>Which are made up of:</i>	
Annual management fee	0.38%
Performance-based fees	0.00%
Other fees and costs	0.00%

Members were also charged **membership fees**³ of \$30.00 over the year to 31 March 2015.

Example of how this applies to a member

Jason had \$10,000 in the fund at the start of the year and didn't make any further contributions. At the end of the year, Jason received a return after fund fees and tax¹ were deducted of \$714.00 (that's 7.14% of his initial \$10,000). Jason also paid \$30.00 in membership fees. This gives Jason a total return of \$684.00 for the year.

Notes

- ¹ Returns in this statement are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax rate may be lower.
- ² Fund fees are fees charged as a percentage of a member's interest in the fund (i.e. as a percentage of their KiwiSaver account balance). As required by the KiwiSaver (Periodic Disclosure) Regulations 2013, the fund fees shown in this statement are calculated as a percentage of the average net asset value of the fund for the year to 31 March 2015. This differs from the method used to calculate and pay the fund's investment management fee. For more information on the fund's investment management fee, see the ASB KiwiSaver Scheme investment statement.
- ³ Membership fees are the fixed dollar charges for membership in the KiwiSaver scheme. If you invest in more than one fund, the membership fee is charged proportionately across the ASB KiwiSaver Scheme funds you invest in according to your interest in each fund. ASB Group Investments Limited may waive or reduce the membership fee for any member or group of members. For more information on membership fees, refer to the information on administration fees in the ASB KiwiSaver Scheme investment statement.

- ⁴ Cash held for liquidity purposes is included within the asset class to which it relates and not separately identified. An asset class may have exposure to securities that can also be categorised as a different asset type, as explained below. At 31 March 2015:
- no New Zealand fixed interest securities are included in the International Fixed Interest asset class;
 - listed property securities comprise approximately 8.29% of the Australasian Equities asset class;
 - listed property securities comprise approximately 2.96% of the International Equities asset class and Australasian equity securities comprise approximately .05% of the International Equities asset class.
- ⁵ The target investment mix does not take account of cash held for liquidity purposes. Each asset class (other than cash) aims to closely track the return of a market index or combination of indices.
- The International Fixed Interest asset class may have exposure to any New Zealand fixed interest securities that are included in a market index for the International Fixed Interest asset class. At 31 March 2015, no New Zealand fixed interest securities are included in a market index for the International Fixed Interest asset class.
 - The Australasian Equities asset class may have exposure to any listed property securities that are included in a market index for the Australasian Equities asset class. At 31 March 2015, listed property securities comprise approximately 8.67% of the market indices for the Australasian Equities asset class.
 - The International Equities asset class may have exposure to any listed property securities and Australasian equity securities that are included in a market index for the International Equities asset class. At 31 March 2015:
 - listed property securities comprise approximately 3.02% of the market index for the International Equities asset class;
 - Australasian equity securities comprise approximately .06% of the market index for the International Equities asset class.
