1. FastNet Business Internet Banking ("FastNet Business")

- 1.1 These are the Terms and Conditions between you and us, which govern your use of FastNet Business. By registering for and using FastNet Business you agree to be bound by these Terms and Conditions. FastNet Business is an Internet and mobile banking service which allows you to appoint Authorised Persons to access and carry out certain transactions on your accounts and also includes a number of Modules.
FastNet Business may be accessed either via our website asb.co.nz, or via ASB Mobile Business.
- 1.2 These Terms and Conditions consist of:
 - (a) the FastNet Business registration form;
 - (b) Module documentation; and
 - (c) any other document or form relating to the use of FastNet Business.
- 1.3 These Terms and Conditions are in addition to ASB's Business, Rural and Corporate Banking Terms and Conditions, ASB's Foreign Exchange Terms and Conditions, and other product or service specific terms and conditions which you have agreed to be bound (the "**Other Terms and Conditions**").
- 1.4 We recommend you also read the [FastNet Business](#), [ASB Mobile Business](#) and [Security](#) sections of our website for more information on how to get the most out of FastNet Business and how to protect yourself when transacting online.
- 1.5 FastNet Business is structured so that there are different levels of Authorised Persons who are authorised to act on your behalf. These are:
 - (a) **Authorised Signatories:** Authorised Signatories are appointed and authorised by you in accordance with your account mandate to:
 - (i) sign any form, declaration or other documentation and give instructions to us in respect of FastNet Business; and
 - (ii) grant Administrators and Users access via FastNet Business to operate your accounts and remove those Administrators' and Users' access as may be required from time to time;
 - (b) **Administrators:** Administrators are appointed by your Authorised Signatories. Each Administrator will be issued a User ID and Netcode token to access FastNet Business and authorise transactions. You must have at least one Administrator to operate FastNet Business and the number of Administrators required to authorise transactions must be the same as or greater than your account mandate. Administrators have complete access to your accounts and are authorised to:
 - (i) use all Functions on the accounts via FastNet Business including access via ASB Mobile Business and the ability to authorise and pay away funds;
 - (ii) appoint and remove Users as may be required from time to time; and
 - (iii) select which permissions are given to Administrators and Users to enable them to use and operate the accounts; and
 - (c) **Users:** Users are appointed by your Administrators and each User will be issued a User ID. If a User is given permission to authorise transactions they will be issued with a Netcode token. Your Administrators will assign Users with permissions to access and use certain assigned Functions on your accounts via FastNet Business.
- 1.6 You are responsible for:
 - (a) ensuring that all Authorised Persons are aware of and comply with these Terms and Conditions; and
 - (b) all acts and omissions of all Authorised Persons including limiting the use of and access to FastNet Business to such persons.
- 1.7 Each Administrator and each User with permission to authorise transactions will be required to provide proof of their identity and address before being issued with a FastNet Business NetCode token. During your relationship with us we may ask for and collect further information about Administrators and Users. We will use this information for the purposes of: (a) confirming the identity and address of Administrators and Users, for example, electronically matching information with identification information in third party databases; and (b) monitoring and screening for anti-money laundering and countering financing of terrorism purposes and for fraud and crime detection purposes.
- 1.8 We may stop, suspend or alter your access to FastNet Business at any time without notice in accordance with clause 8.
- 1.9 In these Terms and Conditions a reference to a time of day is a reference to New Zealand time (unless specified otherwise) and will be based solely on the time determined by our systems.

2. Security

- 2.1 We employ a high level of security monitoring and software, including 128-bit SSL encryption technology. We also strongly recommend that you safeguard your online personal and account information with up to date Internet security software and operating system updates.
- 2.2 When you register for FastNet Business we will provide you with a Client ID. Each Authorised Person will be set up with a User ID that they must request when completing the FastNet Business registration form. In addition, the first time an Authorised Person signs on to FastNet Business using the Internet banking service, they will need to select a personal password. When you register for ASB Mobile Business each Authorised Person can choose to use either their FastNet Business password or to select and use a personal PIN. A password or PIN should be easy for them to remember but difficult for anyone else to guess. You must ensure that all Authorised Persons do not select unsuitable passwords or PINs. Unsuitable passwords or PINs include number and letter combinations that may be easily guessed (e.g. 34567, ABC, 11111, AAA), passwords or PINs used for other banking or non-banking services, or other easily accessible personal information (e.g. birthdate, family, pet or street names).
- 2.3 We offer an additional layer of protection when making payments through FastNet Business called "Netcode". Netcode is a unique number that is generated on a token that we provide to you. Netcode tokens are assigned to an individual Authorised Person. For more information on Netcode, please read the [security](#) section of our website.
- 2.4 You enter the Netcode into FastNet Business to authorise payments and to complete other instructions on FastNet Business. Once you have registered your Mobile Device for ASB Mobile Business you will not be required to enter a Netcode to authorise payments through ASB Mobile Business.
- 2.5 You must take all reasonable steps to ensure that all Authorised Persons keep their Netcode token, password, PIN and any Mobile Device secure and protected from unauthorised use at all times. This means Authorised Persons must:
 - (a) take all reasonable steps to avoid being observed when entering their password or PIN;
 - (b) not leave their computer or Netcode token or Mobile Device unattended when signed on to FastNet Business;
 - (c) not give their password, PIN or Netcode token to anyone (including the police, bank staff or their family); and
 - (d) not keep a written or electronic record of their password or PIN.

2. Security (continued)

- 2.6 If:
- (a) a Netcode token or Mobile Device has been lost or stolen; or
 - (b) any Authorised Person's password or PIN is known, or you or any Authorised Person suspects it is known by another person; or
 - (c) there has been any unauthorised access or activity on your accounts; or
 - (d) you believe for any reason that the information included in any alert is incorrect or indicates transactions that were not authorised by you, you or any Authorised Person must notify us immediately by phoning us on **0800 225 527** or **+64 9 623 8763** from overseas.

- 3.3 As an additional security precaution, we may require you to become IP Address Verified before changing your Approved Limit. **"IP Address Verified"** is an enhanced security feature of FastNet Business - Transactional Banking. It ensures, through validation, that users can only access your FastNet Business Client from fixed IP addresses that your organisation has registered with ASB. IP Address verified does not apply to ASB Mobile Business.
